RESULTS (40%)		
Text		
5 4	3 2 1	0
Text thoroughly and concisely guides the reader through the data and data analysis. Each table and/or figure is described in complete sentences.	Text is not in complete sentence format and confuses reader.	Text is missing.
Data, data processing, figures		
15 13 11	9 7 5	3 1 0
Contains data that support or contradict the arguments made in the discussion. Data are processed correctly.	Missing some critical data or contains irrelevant or redundant data. Data are processed incorrectly in some places.	Missing most critical data or contains large amount of irrelevant or redundant data. Data are processed incorrectly in most places.
Data/figures presented in a logical, organized, professionally formatted fashion		
10 8	6 4	2 0
Presentation choice (table, graph, or figure) enhances understanding. Tables/Figures are numbered consecutively and placed in appropriate order. Should include titles and correct units.	Presentation confuses understanding of information. Numbers and/or titles are unspecific or difficult to follow. Tables/Figures are placed in a somewhat organized manner.	Presentation confuses understanding of information. Numbers and/or titles are unspecific or difficult to follow. Tables/Figures are placed in a somewhat organized manner.
Calculations		
10 8	6 4	2 0
An example of each different type of calculation is shown with the correct formula (variables stated), as well as with the appropriate data plugged in. Units should be correct.	Only partial calculations are shown, or it is unclear what is being calculated. Formula is shown but variables are not stated. Appropriate data is plugged in, but final calculation is wrong.	Most calculations are not given or are grossly incorrect. Formula is wrong or appropriate data is not used. Units are not given or are incorrect.
